## **Lunch**

DJ's Berkeley Café is constantly striving to improve the quality of our products and services while trying to help the environment. As a result we have taken the following measures to make the community and planet a healthier, happier place.

We use locally grown and/or organic produce when available, 100% recycled to-go boxes and biodegradable straws. We recycle approximately 75-80% of the waste produced by the restaurant and 100% of the frying oil is used by locals as bio fuel. During the growing season we are also able to harvest tomatoes, basil and Italian parsley from the patio garden.

Thank you for your patronage.

D&J
